NextGen Greenwich Grants: *Data Pack 2026*

We are sharing key data about the experiences of Greenwich's children and young people to help applicants plan projects that will effectively meet children and young people's needs.

We know that there are other sources of data you may refer to and we also value the local knowledge and insight organisations hold.

Guidance

How to use this pack

- This data pack draws on a range of data sources, including Census data, our service data and youth voice to create a picture of what the Royal Borough of Greenwich looks like for children and young people.
- You can refer to the information we have included in this pack to support your application, showing why the project you're proposing will meet the needs of children and young people in Greenwich.
- Use the 'Contents' slide (next) to jump to information relevant to your project.
- You may want to use your own sources of information, including local insights.
- We have also included links to publicly available datasets for you to keep exploring data on Greenwich.

NextGen Greenwich Grants: *Data Pack Contents*

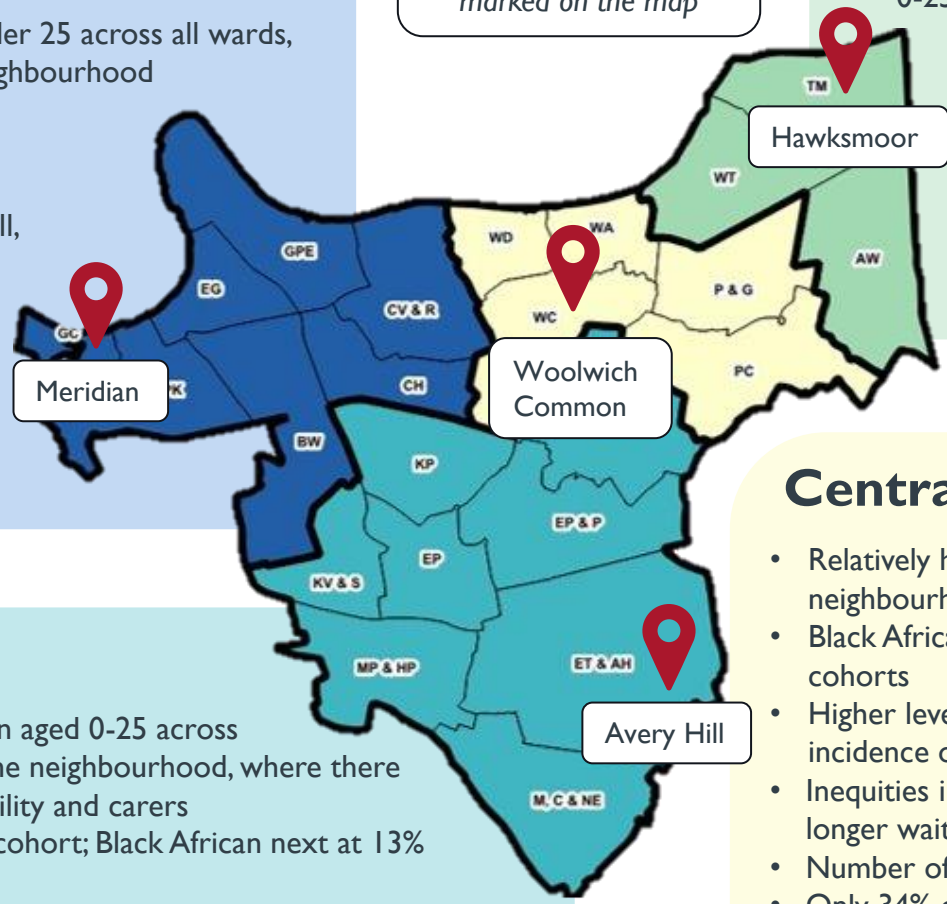

Data – Click to jump to slide	Description
Our Neighbouhoods – At a Glance	An overview of demographics and needs in the four neighbourhoods
Our Community – At a Glance	A summary of key data about our Greenwich community
Our Wards and Neighbourhoods	A map showing the wards in Greenwich and how they fit into neighbourhoods
Population of CYP Aged <25 Years	A heat map and table showing the density of <25 population in wards
Deprivation	A heat map showing deprivation levels in different areas of the borough
Inclusion	A table of key data about suspensions, exclusions and attendance
Childhood Obesity/Excess Weight	A heat map showing excess weight per ward for Reception and Year 6 children
Physical Health Survey	A table summarising responses related to physical health by different year groups, and a sequential colour scale and brief analysis showing differences across demographics
Mental Health Survey	As above for mental health
Safety Survey	As above for feelings of safety
Safety Domestic Abuse	A map showing incidences of domestic abuse involving a child/children
Activities	A bar chart showing feedback about which activities children and young people prefer
What We Heard	A visual representation showing feedback about which activities children and young people prefer
Times for Support	A bar chart showing times when children and young people prefer to access activities
Explore Further	Links to further data sources

NextGen Greenwich Grants: *Glossary*

Term / Acronym	Meaning
VCS	Voluntary and community sector
SEND	Special educational needs and disabilities
LGBT	Lesbian, gay, bisexual, transgender plus
CIOC	Children in our care
CYP	Children and young people
Young carers	Children and young people with caring responsibilities
IDACI	Indices of deprivation affecting children
Quintile	A quintile is a statistical value or group that divides a data set, population, or sample into five equal parts, with each part representing 20% of the total. When data is ordered from lowest to highest, it is split into five segments of 20% each.
SHEU Data	Schools Health Education Unit annual survey of children and young people in Greenwich.
EHC Plan	Education, health and care plan (related to children with special educational needs)
SEN Support	Used to refer to children receiving support for special educational needs at school but who are not considered to have a level of need requiring an education health and care plan.
MARAC	A MARAC (Multi-Agency Risk Assessment Conference) is a local, regular meeting where statutory and voluntary agencies share information to protect adults and children at the highest risk of serious harm or murder from domestic abuse

Our Neighbourhoods: *At a Glance*

Each neighbourhood has a Community Youth Hub marked on the map

North East

- Over 35% of population aged under 25 across all wards
- Black African (32%) and White British (25%) are the most prevalent 0-25 cohorts
- Higher levels of income deprivation and Free School Meal eligibility
- High incidence of childhood obesity
- Strong community groups and a number of council assets in the south-east of the neighbourhood
- Higher proportion of young people reported seeing upsetting content online (34%) than other neighbourhoods

West

- Lower proportion of population aged under 25 across all wards, but higher in the east and west of the neighbourhood
- White British most prevalent (38%) 0-25 cohort; Black African next (15%) then Mixed Heritage (14%)
- Lower levels of income deprivation overall, but with more deprived areas in the west and north
- Strong VCS presence and council asset network in the north-west
- Higher proportion of young people reported being bullied online (22%) than other neighbourhoods

Central East

- Relatively high concentration of population aged 0-25 across neighbourhood, highest to the west of the neighbourhood
- Black African (24%) and White British (24%) are the most prevalent 0-25 cohorts
- Higher levels of income deprivation and Free School Meal eligibility, high incidence of childhood obesity
- Inequities in access to mental health support, with young people facing longer waiting times than other areas in the borough
- Number of council assets and high concentration of VCFSE groups
- Only 34% of young people felt that a health professional was a reliable source of health and wellbeing info for them, 45% felt family would be

South

- Relatively low concentration of population aged 0-25 across neighbourhood, but high to the west of the neighbourhood, where there are also higher levels of deprivation, disability and carers
- White British most prevalent (48%) 0-25 cohort; Black African next at 13%
- Less density of Council assets
- Young people found more sources to be a reliable source of health and wellbeing info – with health professionals (55%) and family (54%) the highest
- Higher proportion of young people reported seeing content that promotes hatred or intolerance of certain groups of people (40%) sexually explicit content (25%) online

Our Community: *At a Glance*

Greenwich is a diverse borough, and our children and young people have diverse needs

c.**64,000** 0- to 17-year-olds estimated* to live in the Royal Borough

70% of Greenwich pupils from non-White British backgrounds

31% of Greenwich pupils have English as their second language

Over 190 languages spoken by at least one pupil in Greenwich schools

23% pupils with SEND

32% of Greenwich Pupils eligible for Free School Meals

Greenwich is a well-connected borough, and we have a range of Community Assets

9 Children's Centres delivering universal & targeted early years provision

55 parks and open spaces,
20 with playgrounds and
15 with outdoor gyms

12 Libraries in the Royal Borough

*2026 estimate from GLA 2024 based BPO projections
** Data reported from SHEU survey 2025/6

*Unfortunately, some of our children and young people face poorer outcomes than their peers***

Community

SpeakSafe data indicates that what makes young people feel unsafe is **people, not places** – this was true for both places that felt overcrowded and isolated

44% of CIOC and 54% of LGBT respondents reported feeling safe, compared to 78% of the general population.

15% of young people in forces families said that nothing would stop them from getting reliable information on health and wellbeing compared to 75% of the general population

29% of LGBT young people felt their family was a reliable source of information compared to 48% of secondary pupils, 26% were worried that they would be judged for seeking information, compared to 13% of secondary pupils.

Physical & Mental Health

Black children and young people have less consistent access to food across all measures – including holiday hunger, portions of fruit and vegetables and no lunch/breakfast.

Across all physical and mental health measures, **LGBT young people had poorer outcomes than the total secondary cohort** – with significant inequities around exercise, smoking, vaping and alcohol use and poorer outcomes than any other population group around mental health

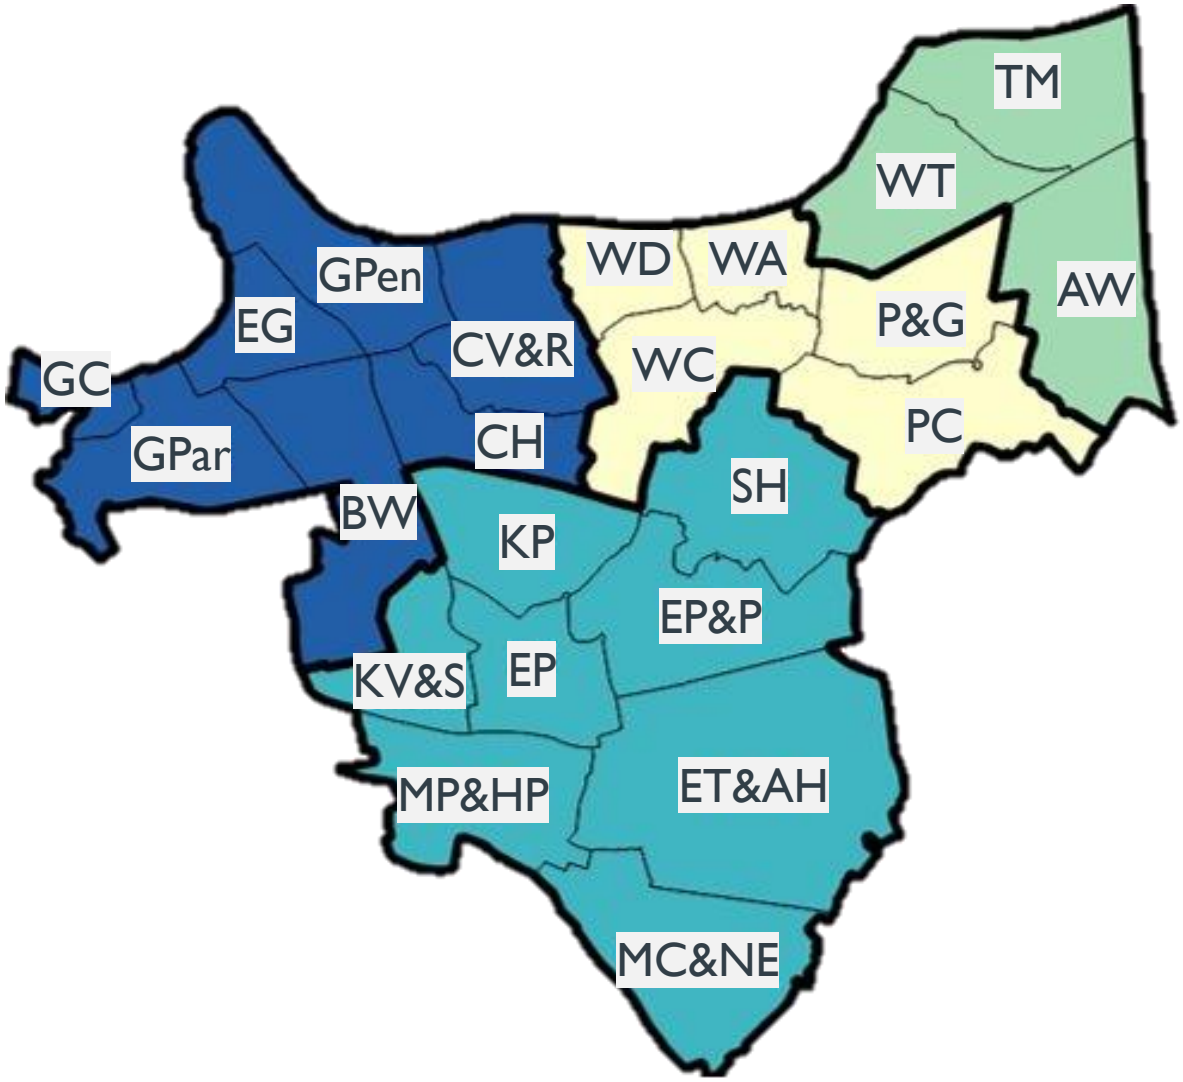

45% of CIOC reported medium to **low self-esteem,** and 70% of young carers and 69% of CIOC reported **worries about family** compared to 56% of the general population

23% of SEN CYP had had no lunch yesterday, compared to 14% of those without SEN. 22% of Young Carers had no lunch yesterday compared to 14% of non-young carers

Young carers had limited access to exercise and **29% struggled for breath** when doing activities like climbing stairs

Safety: *SHEU Data – Demographic Scores and Analysis*

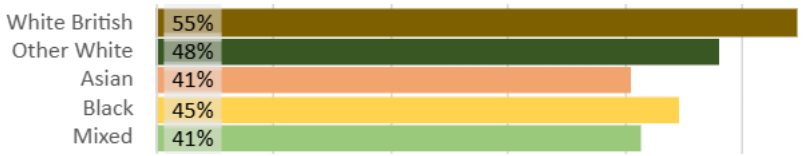

The Schools Health Education Unit conducts an annual survey (SHEU) to understand the health and wellbeing needs of children and young people in the borough. 6,105 5-19 Yr olds (c.11% of population) from 46 schools took part. Results related to feelings of safety from academic year 25/26 are shown below:

SHEU Survey Respondents - Pupil Group	Personal Safety (7 factors, possible score 0-10)
Greenwich Average	7.11
Primary Average	6.40
Secondary Average	7.36
Central neighbourhood (School Location)	6.91
East neighbourhood (School Location)	7.01
South neighbourhood (School Location)	7.33
West neighbourhood (School Location)	6.97
Pupils place residence (where known):	
Greenwich	7.08
Not Greenwich	7.05
Unknown	7.21
Abbey Wood	6.93
Blackheath Westcombe	7.37
Charlton Hornfair	7.20
Charlton Village & Riverside	7.33
East Greenwich	7.10
Eltham Page	6.94
Eltham Park & Progress	7.95
Eltham Town & Avery Hill	7.33
Greenwich Creekside	6.86
Greenwich Park	6.83
Greenwich Peninsula	7.06
Kidbrooke Park	7.11
Kidbrooke Village & Sutcliffe	7.33
Middle Park & Horn Park	7.03
Mottingham, Coldharbour & New Eltham	7.59
Plumstead & Glyndon	6.98
Plumstead Common	7.11
Shooters Hill	6.97
Thamesmead Moorings	7.03
West Thamesmead	7.10
Woolwich Arsenal	6.59
Woolwich Common	7.12
Woolwich Dockyard	6.96

SHEU Survey Respondents - Pupil Group	Personal Safety (7 factors, possible score 0-10)
Central neighbourhood residents	6.97
East neighbourhood residents	7.01
South neighbourhood residents	7.24
West neighbourhood residents	7.13
Unknown neighbourhood, believed Greenwich residents	7.00
Pupils who are:	
Sex - Female / Girl	7.01
Sex - Male / Boy	7.29
Sex - Other/ Prefer Not to Say	6.01
Asian	7.31
Black	7.07
Mixed	7.04
Other Ethnic Group	7.18
White	7.19

Christian	7.07
Hindu	7.25
Muslim	7.27
No religion	7.13
Other belief/faith	7.07
Unknown Faith Group	6.75
Not Young Carer	7.32
Unsure if Young Carer	6.15
A young carer	6.25
SEND	6.68
Unsure if SEND (secondary only)	5.88
Not SEND	7.29
More Income Deprived (Local IDACI Quintile 1-2)	7.00
Less Income Deprived (Local IDACI Quintiles 3-5)	7.19
Compared to secondary average only:	7.36
LGBT - Secondary only (DR def)	6.23
Not LGBT - Secondary only (DR Def)	7.46
No FSM (secondary only)	7.44
FSM (secondary only)	7.19

- 26% of young carers and 24% of CIOC and LGBT respondents reported being threatened with a weapon
- 7% of CIOC and 6% of young carers and those in forces families reported that they had been asked to look after a weapon
- 33% of CIOC reported that they would contact the police if they needed support, less than any other group

% pupils who would go to the police if they needed support by ethnicity:

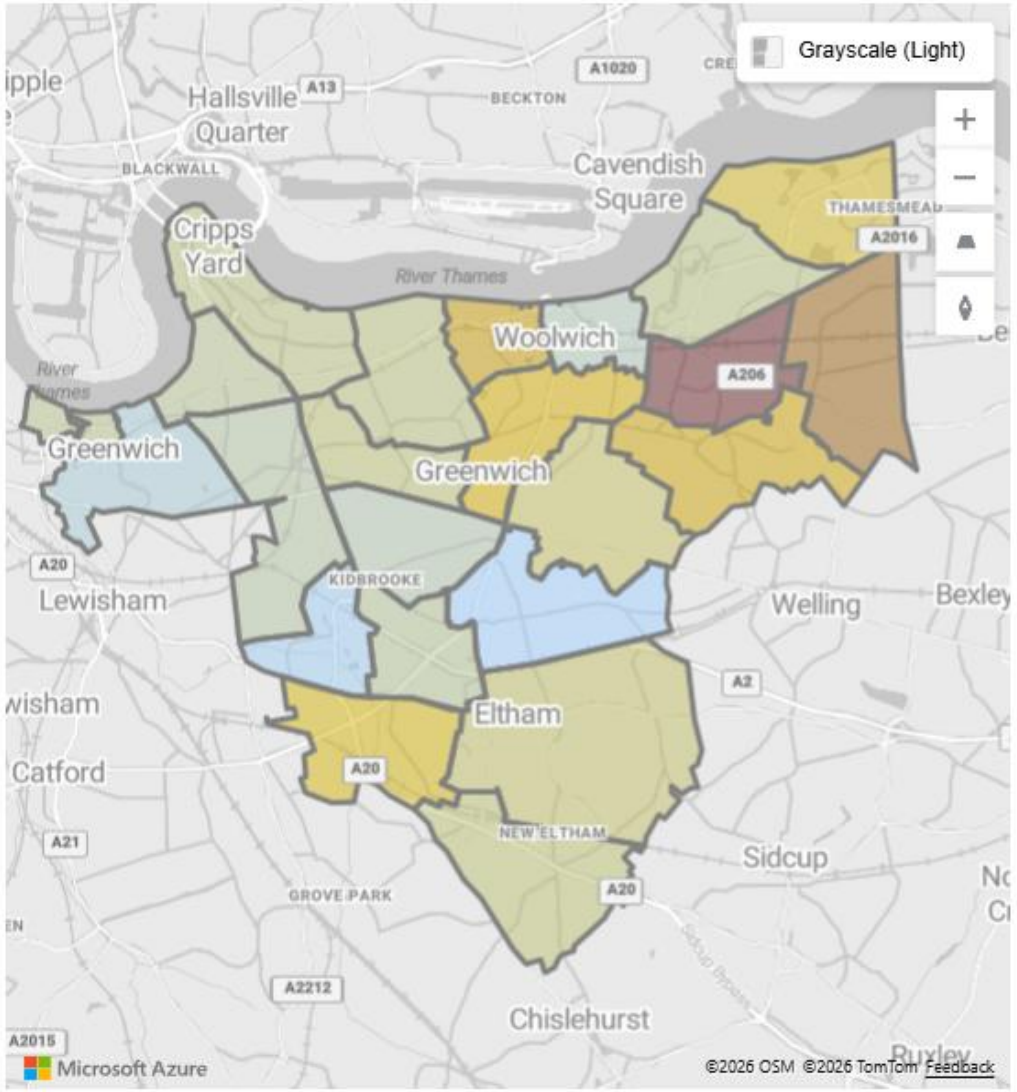

- Young Carers rated their safety as 'good' less than their peers across multiple areas, including going out during the day and after dark.

Safety: *Proportion of MARAC domestic abuse victim-survivors in referrals involving children over the last five years (2021/22 to 2025/26)*

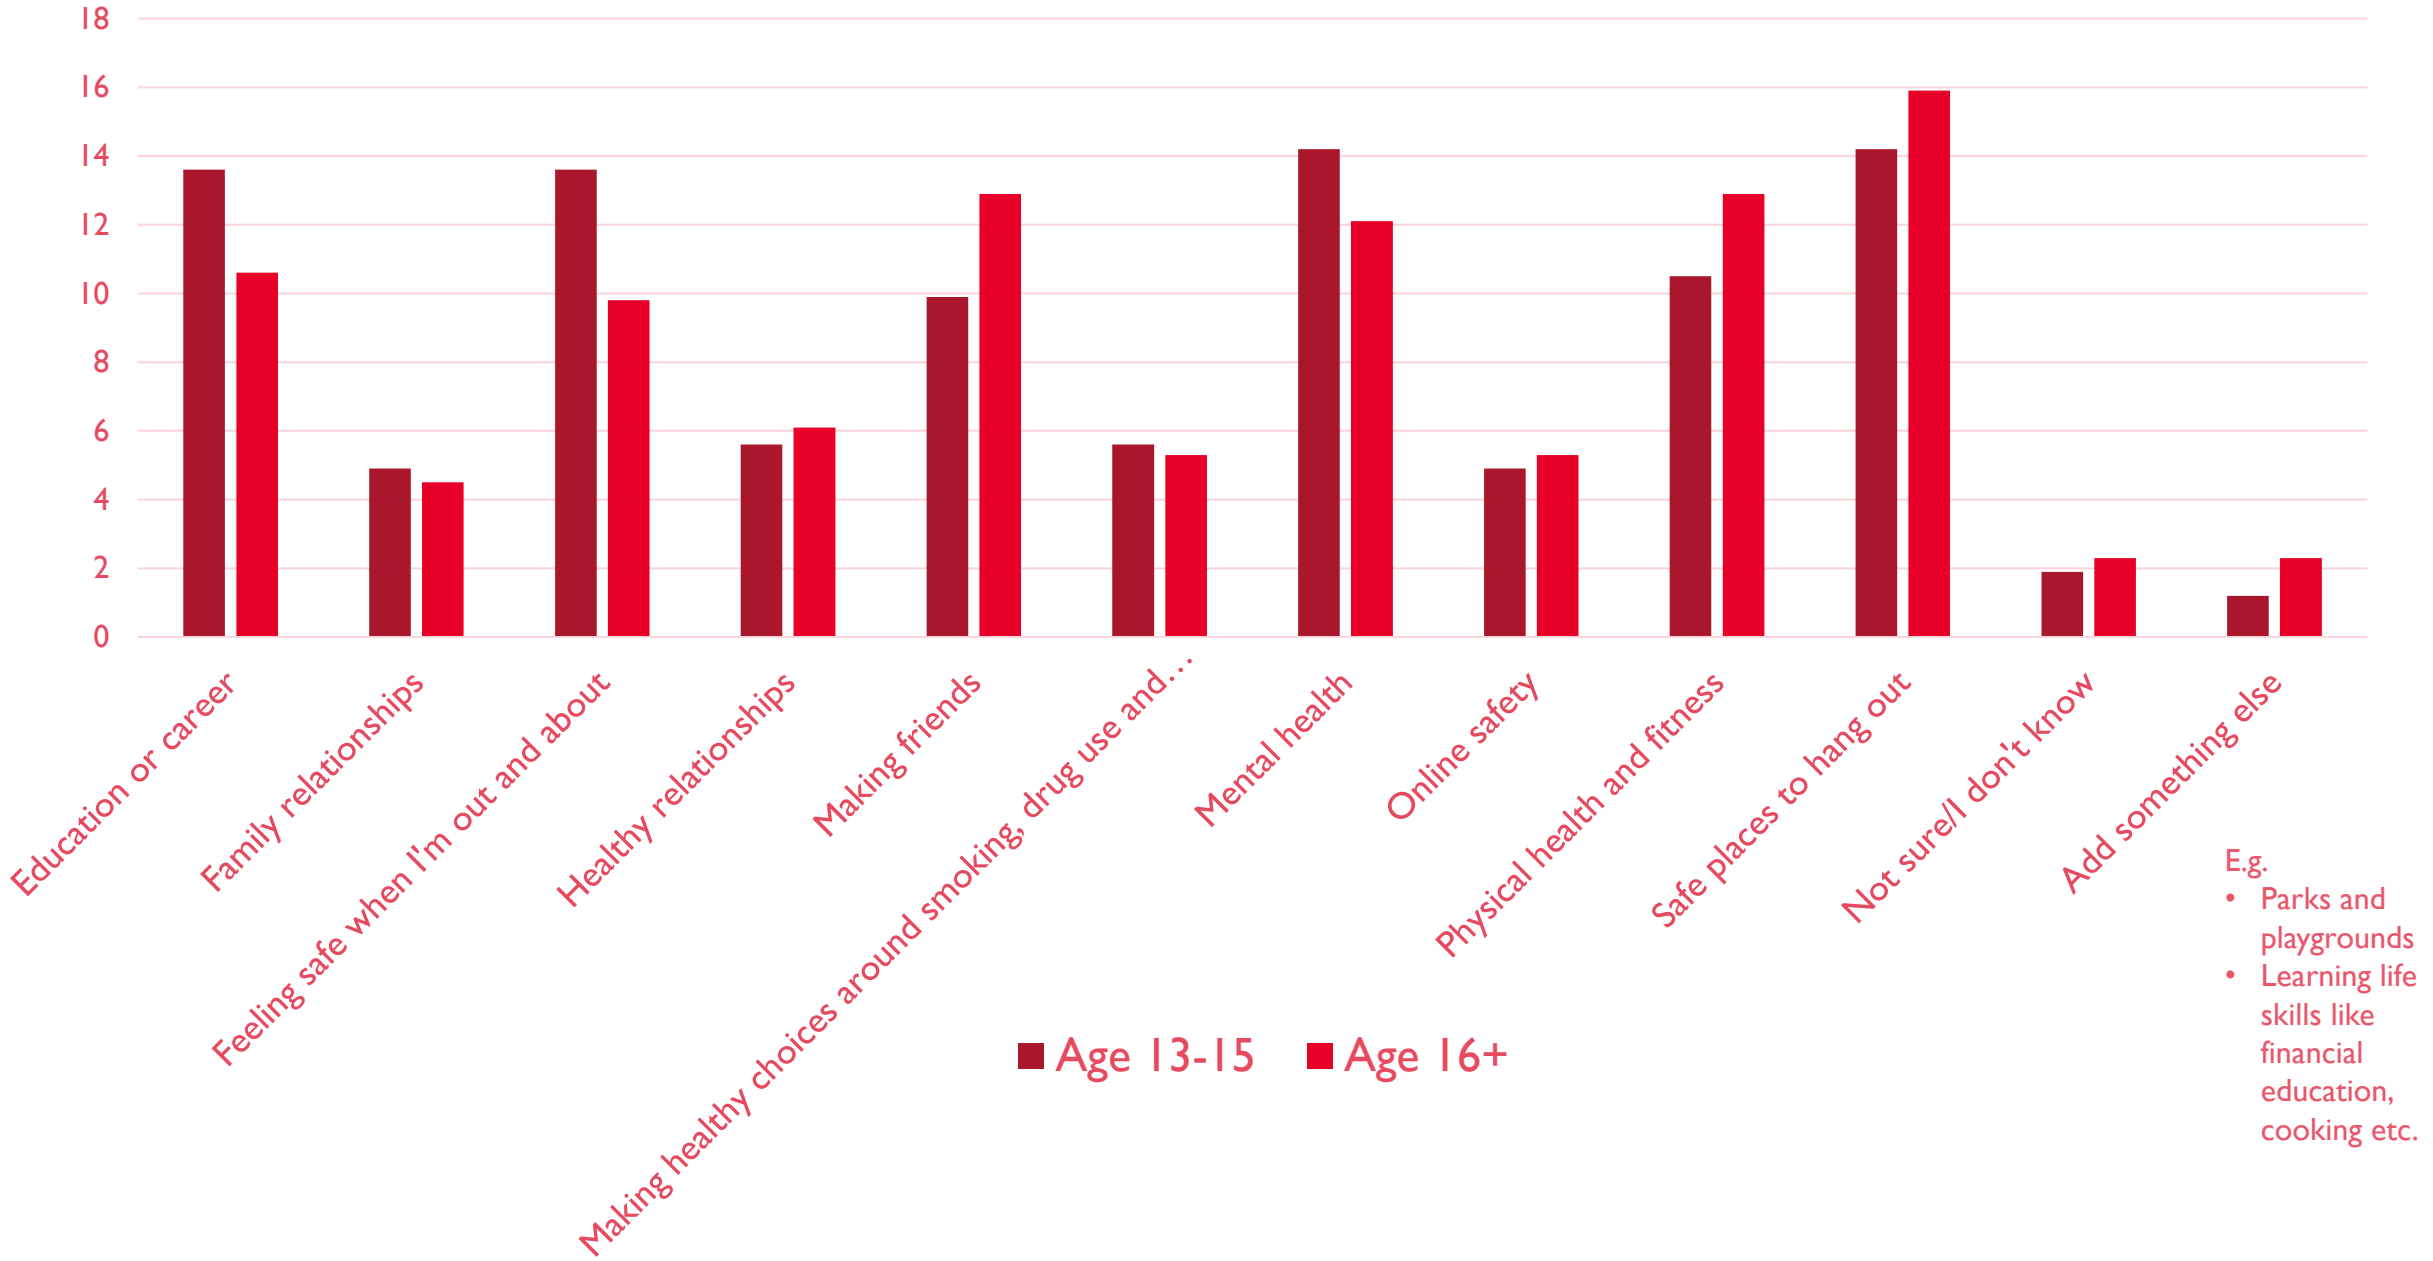

This is a distinct count of victim-survivors not referrals.

VictimWard	Victim Count (%)
PLUMSTEAD & GLYNDON	9.9%
ABBEY WOOD	8.2%
WOOLWICH DOCKYARD	7.2%
PLUMSTEAD COMMON	6.3%
WOOLWICH COMMON	6.2%
THAMESMEAD MOORINGS	6.0%

Activities CYP Would Like: *Young Greenwich Consultation 2025*

E.g.

- Parks and playgrounds
- Learning life skills like financial education, cooking etc.

What we heard from young people:
Ideas for NextGen Grants from our engagement

OUR RELATIONSHIPS

- Boys being able to express their feelings in a healthy and sustainable way
- Building confidence and healthy relationships, relationship advice
- Intergenerational learning, yp and aged care
- Trans and LGBTQ inclusion
- YP developing skills in socialising
- Different ways for YP to express themselves in ways they might not always be able to at school

OUR SAFETY

- Spaces to discuss concerns like cyberbullying
- Work needs to happen with schools to better meet needs of LGBTQIA+ yp

OUR PRESENT & FUTURE

- Environmental issues
- Financial and decision-making skills
- Independence skills, like travel and earning money, cooking
- Digital tools can be important for send accessibility but need someone to support use

Ideas for activities:

- Practical skills like making things, fixing toys
- Holiday activities, trips to farms and sea
- Arts, pottery
- Gardening

OUR SUPPORT

- Consistency
- Working with SEND young people: Fidgeting hands that want to draw
- Smaller groups for YP anxious about attending
- YP prefer someone outside of school to talk to re: mental health
- Support for those waiting for support (EHCP, CAHMS) or who don't meet threshold
- Wellbeing of YP beyond educational attainment

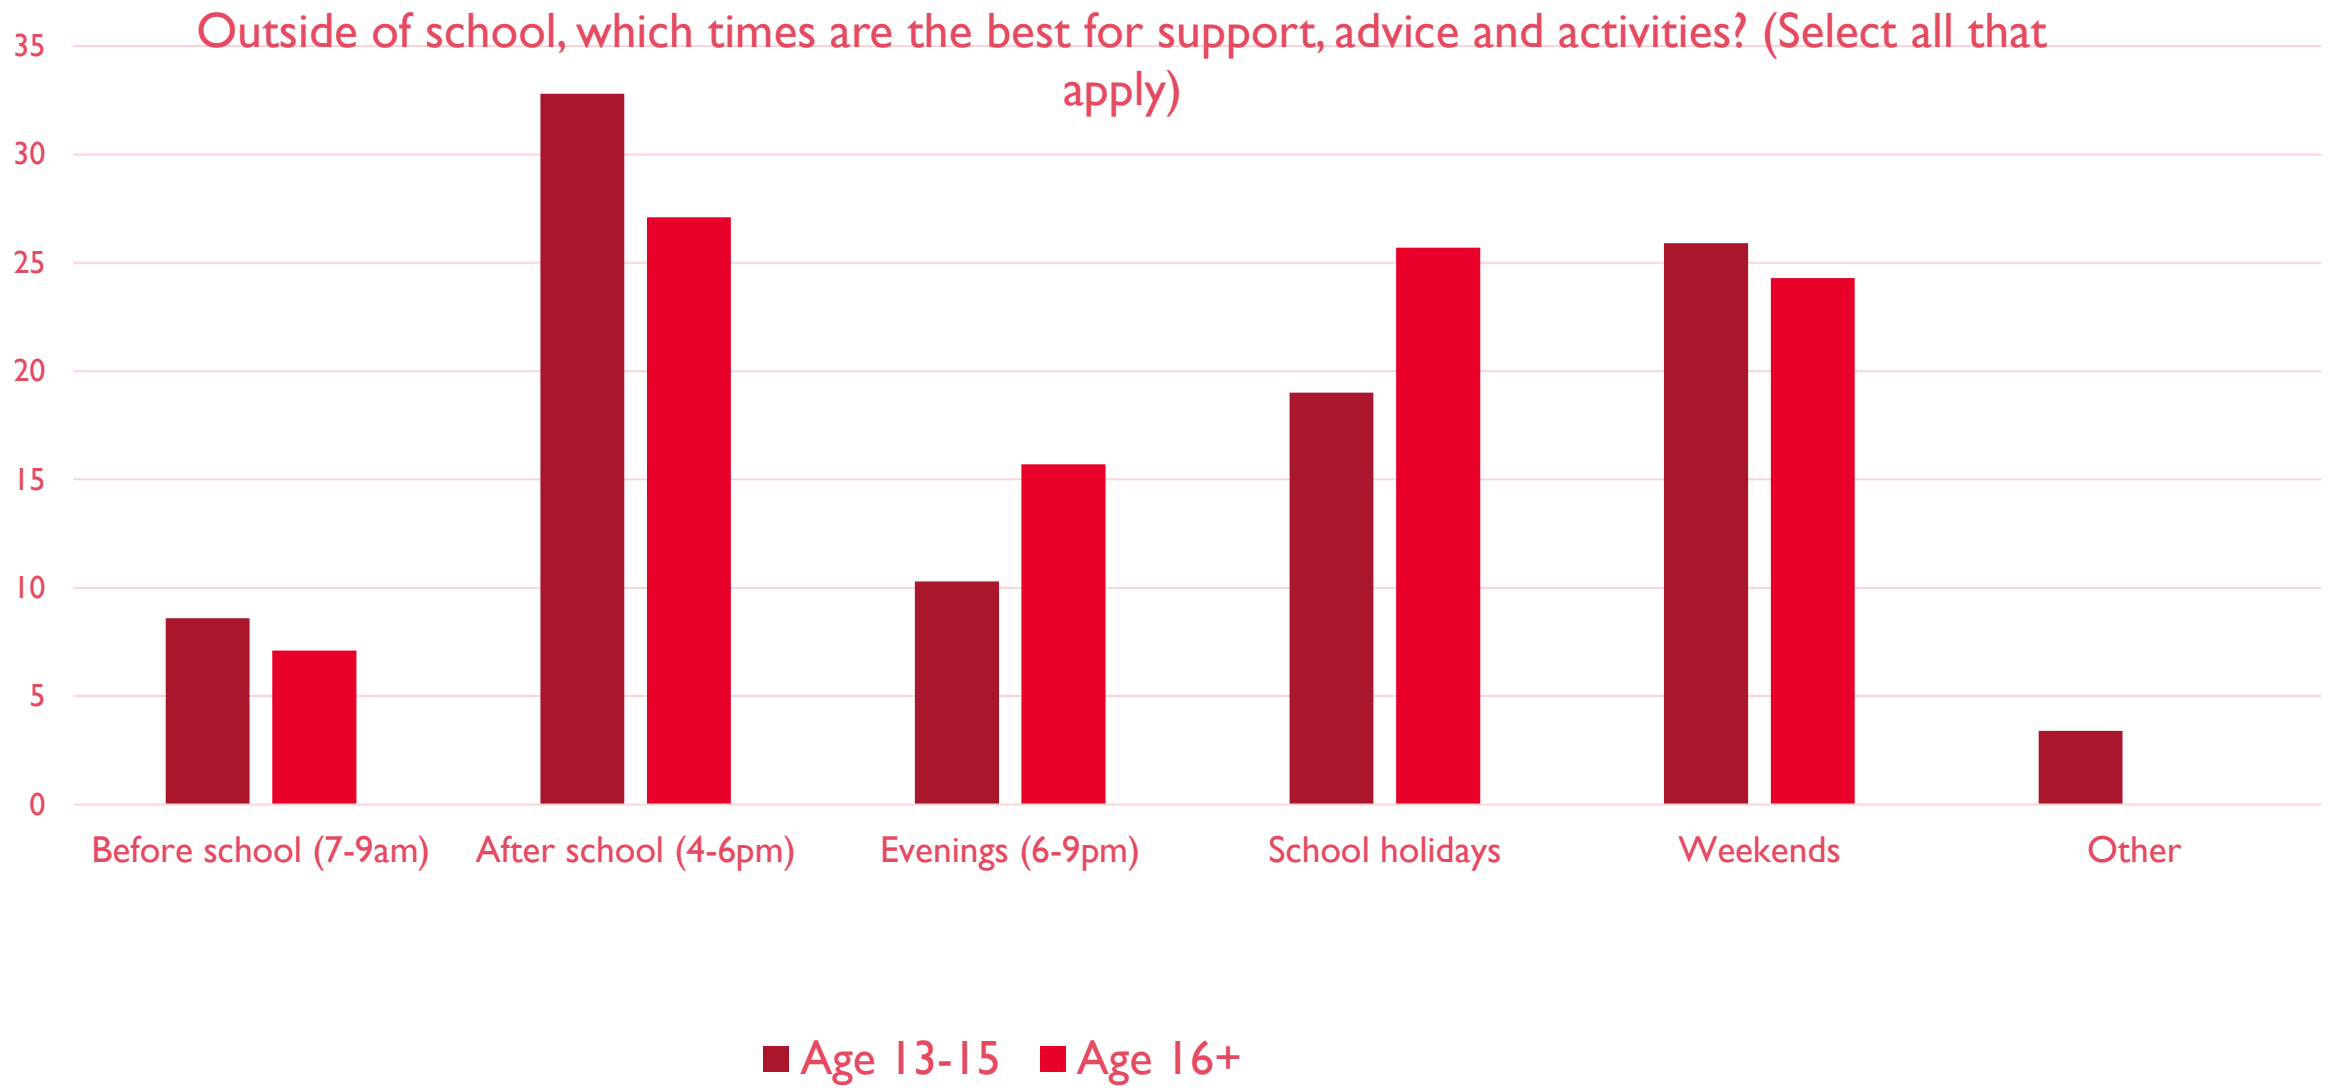

OUR HEALTH

- Culturally relevant spaces for exercise and food
- Health promotion
- Swimming, Physical and outdoor activities, gym memberships
- All services would benefit from having discussions around weight
- Food and food avoidance

OUR VOICE

- Young people want to be seen as a person
- Board of different young people to come together and learn from one another
- Spaces for people to share & learn their own languages and cultural practices
- Parents might trust school settings but young people don't necessarily

Best Times for Support: *Young Greenwich Consultation 2025*

Our Royal Greenwich Data Observatory is a free resource about the health and wellbeing of our population and communities. Use this to help you find out about:

- Neighbourhood Profiles

- the Greenwich Population Insights Dashboard - this helps you explore demographic, social and economic insights across Royal Greenwich using the Census 2021 data

- community insights and health inclusion information that is publicly available

- Joint Strategic Needs Assessment which aims to assess health needs across specific communities or health topic areas and make recommendations on how to improve health and wellbeing and reduce inequalities
